 Membership Gift: Mary Barthel  
 Class Hosts: Dorothy Noirot  
 Luncheon: Peggy Walter  
 Parking: David Hullinger

#### Winterim '03

Carolyn Axt, Co-Chair  
 Peggy Carter, Co-Chair

Once again as we enter our eighth year of existence, the Bradley University Institute for Learning in Retirement is in excellent order, and ready to present another outstanding curriculum of classes for the enjoyment of the membership. Under the guidance of Peggy Cornelius, the curriculum committee has selected and developed 34 class offerings, 4 "Commerce Unseen" trips, 4 "Regional Travel" trips, and 4 computer classes. We invite each of you to take advantage of these offerings, and to invite your friends to participate in what ILR has to offer in our fall term.

We invite all who are attending the fall session of ILR to join us for our "Kick-Off" luncheon: Wednesday, September 25, 2002. Peggy Walter, Chairperson, has selected the menu, and will have decorations on the tables. The Honorable Mayor David Ransburg will be our luncheon speaker.

At the Bradley Volunteer Awards ceremony, held at the end of the school year, Teresa McCabe, Past President and Board member, presented the ILR Student Volunteer of the Year Award of \$500 to Garrick Throckmorton. Students apply through the Student Affairs Office, and are chosen by the ILR Executive Committee. We congratulate Garrick, and recognize his contribution of time and effort to our community and Bradley University.

We would like to mention Betty Doubet, who after taking a class in Writing Your Life Story, wrote a one act play and received a First Place Honor at the State of Illinois Federated Women's Club. Betty's play was then sent in to the National level for consideration. We congratulate Betty, and are happy that she "honed" her skills at ILR.

The ILR executive committee has selected four artists to be featured in Ballroom-C this fall. We hope this treat for the membership will add enjoyment and appreciation opportunities for all of us.

The ILR exists because of the outstanding contributions of its membership, and the excellent direction of Jon C. Neidy, Assistant Director of Continuing Education, and Wanda Lane. We invite all members to volunteer their time, talents, and skills, to further enhance, develop and maintain the quality that we enjoy at ILR. We look forward to seeing each of you this fall.

John A. Mason, President

**ILR Classes: Wed., Oct. 9, 16,  
Tues., Oct. 22, Wed., Oct. 30**

(RI) = Repeat Instructor  
(RC) = Repeat Class

(NI) = New Instructor  
(NC) = New Class

**8:00  
Coffee  
ILR Treat  
Ballroom B**

**8:00 - 8:30**

**1. Tai Chi for Health**—Dave Grebner will help stimulate the flow of healthy energy in your body and enhance your sense of "center" and balance with this ancient body-mind discipline. (NI/NC)

**8:30 - 10:00**

**2. Income, Gift and Estate Taxes**—Learn what you always wanted to know about these taxes with Bill Sharpe, professional tax expert. (RI/RC)

**9:00 - 10:00**

**3. All You Ever Wanted to Know About Addiction... But Were Afraid to Ask**—Frank Hubbell invites questions about chemical dependency (alcoholism/drug addiction) in order to respond to what you want to know. Mr. Hubbell, assisted by Bernie Dempsey, is prepared to offer basic definitions of chemical dependencies, the features of a detoxification program, the recovery process, etc. A presentation will be given by Margaret Toniny, representative of the National Council on Alcoholism and Other Drug Dependencies (NCADD). (RI/RC)

**4. American Presidential Electoral System and a Comparative Perspective**—Take a look at the American system of electing presidents and selection systems of other nations. William Hall and Mark Gobeyn, Bradley Political Science professors, will add a special look at the 2000 U.S. Presidential election and its unusual ending. (RI/RC)

**5. Artificial Intelligence: The Wave of the Future**—Artificial Intelligence? What is it? How does it work? How is it different from natural intelligence? Frank Ritter, professor at Penn State University, will explain some of the mechanisms of AI and their implications. Several demos and movies will be used to illustrate the concepts. The class will use the video conference facility. (NI/NC)

**6. Here Comes the Judge**—Robert Kauffman, U.S. Magistrate Judge, retired, will explain the basic structure of American government and the structure and function of the U.S. court system. (RI/RC)

**7. Medical Terminology for Dummies**—It isn't a foreign language and you can learn the "secrets." Bonnie Murphy and Joanne Haupt will teach you how to talk to and understand your doctor intelligently. Be confident when you fill out health care and insurance forms. (NI/NC)

**8. The City as a Living Organism**—Architect, Ed Barry, will explore the physical evolution and common characteristics of urban settlements. The class will also look at global and local examples of urban architecture. (Optional Kewanee tour, October 29.) (NI/NC)

**9. Watch Your Mouth**—Randall Saxon, Senior Pastor of First Presbyterian Church, explains why we say the words we use in everyday American English. The class will cover over 100 words and phrase origins, mixing history with humor. (RI/NC)

**10. When Our Thinking Changed: The Impact of Modernism**—Modernism was a movement in literature, art, music, and ideas in the period from 1880 through WWII; a movement focused on the end of the old established ideas, and the emergence of a new age. Seth Katz, Bradley English professor, will interpret "Modernist" ideas and works, and discuss how they shaped and responded to their times. (NI/NC)

**10:00 - 10:30**

**Refreshments  
ILR Treat  
Ballroom B**

**10:30 - 11:30**

**11. Algebra for Dummies II**—This class is a continuation of the "Algebra for Dummies" class from the Spring, but new class members are encouraged to join. The class is being taught by Mary Jane Sterling, Bradley mathematics instructor and author of *Algebra for Dummies*. (RI/NC)

**12. Chamber Music**—Allen Cannon, Bradley music professor emeritus, will explore the subtleties and nuances of chamber music. Written for small ensembles, this kind of intimate music was a favorite form of Haydn, Mozart, and Beethoven. The class will listen to recorded performances and, hopefully, some live music, too. (RI/NC)

**13. Continuing Down the Path to Garden Success**—Dave Robson, University of Illinois Extension horticulture educator, returns with more guidelines for the seasonal gardener. He will discuss proper pruning techniques and shopping for plants by mail, how to force bulbs for gorgeous late winter blooms and provide further suggestions for choosing the best of the "minor" bulbs. (RI/NC)

**14. Developing a Sell Technique**—Bert Sanders, President of Financial Education Advisory Service, will discuss establishing a financial goal, risk tolerance and asset allocation. Learn how to interpret financial statements, Morning Star, and how to use technical and fundamental analysis. (RI/NC)

**15. Epidemiology in Our Lives: What We Know About Arthritis, Heart Disease and Obesity**—Epidemiology has been in the news the past few months. Most people are aware of what an epidemiologist would do in a bioterrorism situation. However, our biggest health challenge comes not from infectious illnesses, but from chronic disease. Marjorie Getz, epidemiologist, will help you become familiar with the best information related to arthritis, coronary heart disease and obesity. (RI/RC)

**16. The History of Temple Mount**—The class, taught by Gil Nolde, will explore the history and significance of Jerusalem's most holy site, from prehistoric legend to biblical references to current status, and why it's important to Christians, Muslims and Jews. (RI/NC)

**17. The Richard Rodgers Story**—Dick Hinds reviews the life of Richard Rodgers, composer, through both the Lorenz Hart and Oscar Hammerstein periods. (RI/NC)

**18. Writing Your Life Story**—Do you have a lot of family stories to tell, but can't get them down on paper? Need some help organizing all those ideas or getting started? Then this is your class! Merrill Buesing and Carla Montez teach you how to turn your memories into memoirs. Join us for the fun and satisfaction of reminiscing with an outcome! (RI/RC)

**11:30 - 12:30 Lunch**

**Buffet in the Ballroom – \$25.00 for 4 lunches (Sack lunches welcome.) Cafeteria is also open. Meal tickets must be purchased by September 26. Daily meal tickets may be purchased at \$6.25 each week.**

**Buffet Menu**

- 10/9 Taco Salad Bar, Soup, Drink & Dessert
- 10/16 Baked Potato Bar, Soup, Drink & Dessert
- 10/22 Pasta Bar, Tossed Salad, Soup, Drink & Dessert
- 10/30 Turkey, Dressing, Potatoes, Green Beans, Soup, Drink & Dessert

**12:30 - 1:30**

**19. Business Conduct and Ethics**—Are "Situational Ethics" the norm? This oxymoron suggests there is no right or wrong. What can we learn from the Enron situation? A discussion of ethics will be given by corporate, accounting, medical, and academic leaders. (NI/NC)

**20. Favorites of the Big Band Era**—Charlie Cartwright and Bob McCallum explore the music of the Big Band era: vocal harmony, Dixieland and Blues, live performances, instrumental, and instructional. (RI/NC)

**21. Lewis and Clark Expedition**—Celebrate the 200th Anniversary of the Great Adventure—The Lewis and Clark Expedition. Join their journey into the unknown West through the eyes of a historian, an artist, a traveler, and a portrayal of a Native American woman. (NI/NC)

**22. Modern Architecture and Design**—Survey international design movements in architecture and allied disciplines like interiors, furniture, product and graphic design with Bradley Department of Art Chair, Harold Linton. (NI/NC)

**23. Peoria's Sister Cities**—Join Leo Jordan, Rex Linder and Joann Randolph in taking a look at Peoria's sister cities of Clonmel, Ireland; Benxi, China; and Friedrichshafen, Germany. Also hear from the Commissioner of the Sister City Commission of Peoria, Mike Quine. (NI/NC)

**24. Reading John B. Keane**—Prose fiction, poetry (and songs), writer, and international playwright of Irish life, Keane handles tragedy and comedy with equal art. He is still a fealty Listowel publican in County Kerry. Instructor Phyllis Kells, English M.A. (RI/NC)

**25. Short Mystery Stories of the 20th Century**—Read and discuss stories from the book *The Best Mysteries of the Twentieth Century* with Wilson Schroeder. This class will be strictly for entertainment purposes. The book is available at Bradley University Bookstore. (RI/NC)

**26. Urological Disorders**—Join Sarat Sabharwal, M.D., in exploring the aspects of a variety of urological disorders including: incontinence, diseases of the prostate, kidney disorders and genitourinary cancers. (NI/NC)

**1:30 - 2:00  
Refreshments  
ILR Treat  
Ballroom B**

**2:00 - 3:00**

**27. Charles Dickens as Social Critic**—Join Peggy Carter, Bradley retired English professor and department chair, as this study of Dickens' shortest novel *Hard Times* considers his remarkable use of fictional techniques to explore political, social, and educational abuses in 19th century England. Besides written text, the class will look at the biographical evidence and a film version of the novel. Participants are encouraged to read the novel before the course and bring a copy to class. The book is available at Bradley University Bookstore. (RI/NC)

**28. Developing Technologies**—This class will explore the Peoria Region Biocollaborative initiative and the roll that new technology plays with Tarsem Jutla, Caterpillar Innovation and New Technology Manager; knowledge management with Bob Castle, Engineering Informational Manager; the Virtual Proving Ground at Caterpillar with Frank Huch; and the technical issues of cloning with Grant Brewen, President and CEO of Biotechnology Research and Development Corp. (NI/NC)

**29. How Animals Enrich and Help Us**—Investigate the lives of Service Dogs with Joan Segler, co-owner of Heartland Dog Training, police K-9 units with Sergeant Roegge, Peoria police officer, the health benefits of horse riding with Judith Kruse, Executive Director of Central IL Riding Therapy, and the human animal bond with Bob Perry, veterinarian. (NI/NC)

**30. Opera for Everyone**—Take a fun-filled look at the wonders of Grand Opera designed for both newcomers and those already familiar with this great art form with William and Margaret Swain, General Manager and Executive Director of Opera Illinois. (NI/NC)

**31. Special Collections of Bradley University**—Explore Bradley Cullom-Davis Library's Special Collections with Charles Frey, Special Collections librarian. Learn about book binding, paper preservation, and what makes a book rare and the collections local history resources. (NI/NC)

**32. Twenty-five Years of Field Biology: From Army Tanks to Cows**—Join Barbara Frase, Bradley biology professor, in learning about migratory birds, ecology on army lands, and cattle grazing in the mountains. Weather permitting the class will do a campus field study. (NI/NC)

**33. Two Contemporary Topics in Biology: Human Cloning and Bioterrorism**—Learn about the scientific basis of cloning and the specific problems of cloning humans. Also explore the different types of bioterrorism and mechanisms to achieve them with Sam Fan, Bradley biology professor. (NI/NC)

2:00 - 3:30

**34. Everyday Chemistry**—Chemistry is involved in everything in our tangible world. Explore some of the elements of chemistry, materials, food, health, and sources of energy with Ken and Doris Kolb, Bradley chemistry professors emeritus. (RI/RC)

## Computer Classes: Fridays, October 11, 18, 25, and Nov. 1

All computer classes are limited to 14 people and each person may register for only 2 computer classes.

These computer classes are held in the Continuing Education Computer Lab, Caterpillar Global Communications Center Room #133.

35. 8:00 - 9:45 a.m.

**Selective Searching**—In this class we will explore searching on the World Wide Web with Jon C. Neidy. We will determine the differences between a search engine and a directory, investigate examples of each, learn concrete searching skills, and practice the skills we develop with real world questions. We will also establish a procedure for evaluating the validity of a website. Prerequisite: Wandering the World Wide Web. No exceptions. (RI/RC)

36. 10:00 - 11:45 a.m.

**PowerPoint Pluses**—Jon C. Neidy, Assistant Director of Continuing Education, will lead an exploration of the further uses of PowerPoint. We will focus specifically on creating and presenting a usable PowerPoint file. Prerequisites: Previous PowerPoint experience and a need for a presentation. No exceptions. (RI/NC)

37. 1:00 - 2:45 p.m.

**Windows - Level 3**—Join Sue Manley and extend your knowledge of the Windows operating system. Work with shortcuts, add and remove programs from your computer or from the Start Menu. Learn more about setting up hardware and how to deal with viruses. This is an advanced level class. Prerequisite: Windows - Level 2. No exceptions. (RI/RC)

38. 3:00 - 4:45 p.m.

**Wandering the World Wide Web**—A first foray into the World Wide Web for those who are comfortable with computers. Class will be taught by Sue Manley, Program Director in Continuing Education. (RI/RC)

## Come Travel With Us

### Local Travel

#### *Commerce Unseen*

#### September 5 - O'Brien Stadium

O'Brien Stadium is a state-of-the-art ballpark with three levels. There are 5 locker rooms on the locker room level, on the concourse there are 7,500 seats, 3 grass lawns, a playground, and a Pepsi Picnic Plaza. The sky box level includes 2 party decks, the media center and of course the sky boxes.

#### September 12 - Bradley's Olin & Constance Halls

Constance Hall was a women's residence hall for 30 years, until it became the home of the School of Music in 1963. The original Olin Hall was dedicated in 1968 and housed Biology, Chemistry and Physics departments. The Olin Foundation contributed \$2.6 million for the original building and a fair amount of the equipment. In 50 years the Olin Foundation provided over 50 science buildings for private universities and colleges across the country. The tour will showcase the additions and renovations of these campus buildings and explain how the facilities impact today's students and faculty.

#### September 19 - Peoria Fire Academy\*

The visit to the Peoria Fire Academy will feature a tour of the five-story burn tower used for live fire scenarios. Visitors will walk through the burn areas where the air temperature during training fires can reach 1,000 degrees at the ceiling. Other exhibits include the following demonstrations: aerial ladder operation, auto-extrication, and sofa fire.

\*Visitors should wear utility clothes.

#### September 26 - Caterpillar Tech Center

Caterpillar Inc. products and services fall into three principal lines of business – Machinery, Engines and Financial products. One of Caterpillar's main strategies is to integrate new technologies into products to improve customer efficiency and productivity. We will tour the Technical Center where much of the advanced technology is developed for the machines and engines. Presentations will be made on both the emerging advanced technologies and technology application to production machines and engines. After an overview of Caterpillar's Technical Services Division, the group will tour the Virtual Reality Lab, Drive Train Simulator, and the Materials Research Lab.

Each tour includes lunch and van transportation. Lunch and parking information will be sent to you.

O'Brien Stadium:	\$15.00 Thurs.	September 5
Olin & Constance Halls:	\$15.00 Thurs.	September 12
Peoria Fire Academy:	\$15.00 Thurs.	September 19
Caterpillar Tech Center:	\$15.00 Thurs.	September 26

## Regional Travel

*St. Louis, Missouri*

*St. Louis Art Museum*

*Tuesday, August 27, 2002*

*Orazio and Artemisia Gentileschi*

*Father and Daughter Painters in Baroque Italy*

This landmark exhibition is the first to explore the full careers of Orazio and Artemisia Gentileschi, father and daughter masterpiece painters of Italian Baroque art. After 400 years, the Gentileschis must be counted among the most fascinating Old Master artists, for the beauty and drama of their works as well as the compelling stories of their lives. The exhibition features more than 65 works by both artists representing the significant stages of their careers as well as an audio tour with headphones. *The exhibit was co-organized by the Saint Louis Art Museum, The Metropolitan Museum of Art, and the Soprintendenza per i Beni Artistici, Rome.*

For more information visit: <http://www.slam.org/gentil.html>

Cost: \$65.00 includes audio tour, lunch, and charter coach transportation. We leave at 7:30 a.m. from Westminster Church (1420 W. Moss) and return early evening. Please register by August 20. Jon C. Neidy and Wanda Lane will be your escorts.

*Collinsville, Illinois*

*Thursday, October 10, 2002*

*Cahokia Mounds*

When Cahokia Mounds was designated a United Nations World History Site in 1982, it was formally recognized as an irreplaceable property of international significance. Cahokia Mounds belongs to an elite group of cultural and natural landmarks of special importance in the history of mankind. Cahokia Mounds State Historic and World Heritage Site is a 2,200-acre site preserving the central section of the largest prehistoric Indian city north of Mexico. Over 1,000 years ago over 20,000 residents lived in the prehistoric city of Cahokia (now in present-day Collinsville). The site's 65 man-made earthen mounds, wooden sun calendar, and recently completed Interpretive Center, present a coherent account of the sophisticated culture whose city was centered there. Cahokia Mounds is the home of Monks Mound, the largest prehistoric earthen construction in the New World. The 100-foot tall, four-tiered platform of Monks Mound was built in stages over a period of 300 years. Its base covers more than 14 acres and contains about 22 million cubic feet of earth. Enjoy a video, Interpretive Center Gallery tour and an outdoor tour.

For more information visit:

<http://medicine.wustl.edu/~mckinney/cahokia/cahokia.html>

Cost: \$60.00 includes tour, buffet lunch, and charter coach transportation. We leave at 7:30 a.m. from Westminster Church (1420 W. Moss) and return early evening. Please register by September 25. Jon C. Neidy and Wanda Lane will be your escorts.

*Kewanee, Illinois*

*Tuesday, October 29, 2002*

*Kewanee Architecture and More!*

*With Ed Barry, Architect*

Take a close look at how a late 19th/early 20th century town center was reborn as a regional retail complex, entirely under the auspices of the private sector. Good's Furniture House began its life as a small retail operation (selling coffins, baby carriages, and home furnishings) in 1895. Its original storefront included perhaps a few thousand square feet at most. Today, it occupies 12 renovated (expanded/adaptively reused) buildings, with a total square footage exceeding 125,000. Good's was a pioneer in the use of atria and glass elevators, inside renovated historic buildings, to add drama and architectural interest to the retail environment. As architecture, as urban design, as history, and as a business model, Good's of Kewanee is a unique story that can serve as a prototype for other communities to emulate.

Who are Oscar and Andy? We'll learn more about them and pay them a visit. On the way home we'll stop at Sunnyfield Greenhouse and Gardens. The gardens may be dormant, but we'll enjoy learning about what they do and how they do it.

Cost: \$55.00 includes tour, lunch, and charter coach transportation. We leave at 8:00 a.m. from Westminster Church (1420 W. Moss) and return late afternoon. Please register by October 15. Ed Barry, Jon C. Neidy, and Wanda Lane will be your escorts.

*Chicago, Illinois*

*Chicago Art Museum*

*Wednesday, January 15, 2003*

*Medici, Michelangelo, and Late Renaissance Art*

The Art Institute of Chicago has organized this major international exhibition of approximately 180 paintings, sculptures, graphics, porcelain, tapestries, costumes, and other works of art. The exhibition will provide a detailed survey of the art and culture of Florence between the 1537 election of Cosimo I de'Medici as Duke of Tuscany, and the 1631 death of his grandson, Cosimo II de'Medici. Featured will be Michelangelo's sculptures and drawings from the period of the artist's early association with Cosimo I, as well as important works by other artists employed by the Medici.

For more information visit:

<http://www.artic.edu/aic/exhibitions/michelangelo.html>

Cost: \$75.00 includes tour, lunch, slide lecture and charter coach transportation. We leave at 7:30 a.m. from Westminster Church (1420 W. Moss) and return early evening. Please register by January 3. Jon C. Neidy and Wanda Lane will be your escorts.

# Computer Tips...

## ***Is your computer insured?***

Check with your insurance agent to verify that your computer is covered under your homeowner's or renter's insurance. Computer coverage is relatively inexpensive and can protect both your hardware and software. Without special computer insurance, your hardware might be covered, but you would incur the cost of replacing the software. Ask your agent.

## ***In the market for a new monitor?***

If you are in the market for a new monitor, you might want to consider an LCD (Liquid Crystal Display) flat panel monitor. These new display devices are growing in popularity as the prices drop. What do people like best about flat panel monitors? They take up very little desktop space, and they're very lightweight. Display quality is improving and several flat panel monitors are now available for under \$500. For more information and reviews of currently available monitors or other peripherals, visit [www.cnet.com](http://www.cnet.com)

## ***Read the directions!***

If you decide to use a can of "spray air" to blow the dust out of your computer keyboard, be sure to read the directions carefully. Most of the products should not be shaken before use, and the can should remain upright during the spraying to prevent unwanted liquid from reaching the computer.

## ***Is your computer sluggish?***

Today's computer programs require more power and more memory. If you are using Windows '98 or Windows ME, you should have a minimum of 128 megabytes of RAM. If you purchase a new computer, consider upgrading the RAM to 256 megabytes because digital images from cameras and scanners require more memory. Memory chips are relatively inexpensive, and your computer will thank you for the extra power.

## ***Worried about viruses?***

If you have e-mail (or plan to use it) you will probably receive many virus warnings from well-meaning friends. Here are a few facts about viruses that you need to be acquainted with...

- Keep your anti-virus software updated. If you don't have any, make it a priority to purchase either the Norton or the McAfee antivirus program.
- Some e-mails have attached files, in addition to the message body. E-mail attachments can be good (photos, music) or bad (a virus). In general, you cannot get a virus just by opening or reading your e-mail, but you *can* get a virus by opening an attachment that contains a virus.
- If you hear about a virus on radio, television, or in the newspaper, it's probably a real threat rather than a hoax.
- If you have doubts about whether or not you have received an e-mail virus, check this website for more information: [www.symantec.com](http://www.symantec.com)

---

***Want to learn more about using your computer?*** We offer hands-on computer classes that are designed especially for seniors. Affordably priced at \$50, you won't get better instruction anywhere! Call 677-2820 to request more information.
